Nikola Hardi ^[1]

Biography:

Nikola Hardi is pursuing Bachelor's degree in Computer Engineering and Computer Communications at the Faculty of Technical Sciences, University of Novi Sad, Serbia. Nikola is interested in computer architecture, performance optimisation, operating systems, compilers and development tools. He is very passionate about open source projects and communities and building small things that help in everyday tasks. He worked in RT-RK on iterative compilation framework for LLVM.

During his stay at CERN as participant in the openlab Student Programme 2016 he is working on Linux perf tool, a tool for accessing PMU data, performance monitoring and analysis.
