Scaling Magnum and Kubernetes: 2 million requests per second ^[1]

Date published:

7 Jun 2016

Outlet:

planet.openstack.org

Two months ago, we described in [this blog post](#) ^[2] how we deployed OpenStack Magnum in the CERN cloud. It is available as a pre-production service and we're steadily moving towards full production mode as a standard part of the CERN IT service offerings to give Containers-as-a-Service.
