Wednesday, 29 March, 2017

Oracle has been deeply involved with the research community for more than a quarter century now. Recent advancements we've made in the cloud deployment of high performance computing infrastructure and advanced analytics solutions are focused on one goal - Accelerating Enterprise Research at Scale. Our advancements in key technologies including Big Data, Machine Learning/AI, and IoT, coupled with the far more cost-effective and elastic cloud delivery model - have radically changed what is possible in data driven research.
